

Friday, April 25, 2025

Time:	Glavna dvorana	Lovor	Mimosa I	Mimosa II
11:00	REGISTRATION			
13:00-13:30	OPENING CEREMONY			
13:30-14:30	<p align="center">Keynote lecture James S. Wolffsohn Myopia control attitudes and practice update</p>			
14:30-15:00	<p align="center">Lorcan Butler Headaches in 2024- From Simple to Sinister!</p>			
15:00-15:30	<p align="center">Pavel Beneš Functional vision evaluation in low vision clients</p>			
15:30-16:00	<p align="center">Wolfgang Cagnolati Peripheral retinal changes in the optometric practice</p>			
16:00-16:30	Coffee Break & POSTER SESSION			
16:30-17:00	<p align="center">James S. Wolffsohn Dry Eye Diagnosis and Management Selection</p>	<p>WORKSHOP Dea Lens</p>	<p>WORKSHOP Does the osmolarity of the tear film matter? <i>Petr Vesely</i></p>	<p>WORKSHOP Vision therapy treatment for spasm of accommodation Marlena Bobrowska</p>
17:00-17:30	<p align="center">Tomasz Suliński Changes in Tear Film Lipid Layer Thickness Following Contact Lens Application</p>			
17:30-18:00	<p align="center">Langis Michaud Soft Multifocal contact lenses : follow the guide !</p>			
18:00-19:00	<p align="center">Mark Rosenfield Prescribing prisms: is there any point</p>			

Saturday, April 26, 2025

Time:	Ballroom	Lovor	Mimosa I	Mimosa II
09:30-10:00				
10:00-10:30	Mark Rosenfield The effect of glare, luminance and contrast on visual acuity	WORKSHOP Splendor- Talking about Contact Lens Technologies and Upgrade: Water Surface Lenses Liazos Theofanis	WORKSHOP Acquired binocular anomalies in adults - symptoms, diagnosis, treatment, and prognosis Justyna Kiermasz	WORKSHOP Blizinski dodatak ovisno o željenoj radnoj udaljenosti Hlavaček Tamara Igor Božičković
10:30-11:00	Langis Michaud How technology can help to bring your scleral lens fits to the next level			
11:00-11:30	Coffee Break & POSTER SESSION			
11:30-12:30	Keynote lecture Giancarlo Montani The fitting of multifocal contact lenses for all ages			
12:30-13:00	Lorcan Butler Swollen Optic Nerves- What do i do now?			
13:00-13:30	Davor Mihaljević Impact of Fitting & Refraction errors on progressive lenses adaptation Essilor			
13:30-14:30	BREAK			
14:30-15:00	Sanja Kalambura The Eyes and the Environment: Assessing the Impact of Climate Change on Ocular Health	WORKSHOP Essilor - Correct way of taking fitting measurements for Progressive lenses, and its impact on adaptation Davor Mihaljević		
15:00-16:00	Mark Rosenfield Does increased screen time lead to myopia?			
16:00-16:30	Giancarlo Montani How important is the base curve in soft contact lens fitting			
16:30-17:00	Coffee Break & POSTER SESSION			
17:00-17:30	Damjan Žunić Task Failed Successfully	Joung research: Julia Szewc - Effects of antidepressant use on the organ of vision Emilia Nasiłowska - The influence of using proper correction of refractive error and vision therapy in patients suffering from chronic symptoms of asthenopia – case studies Anna Gregarová - Enhancing Clinical Skills in Optometry: The Role of Active Learning and Simulation Nika Sever - The economic impact of vision loss Aleksandra Cmiel - The influence of accommodative spasm on the reliability and outcomes of optometric assessment Mrak Dominik - The influence of negotiation skills on successful negotiations in the optical industry of Zagreb county Rinos Čočaj - Cumulative analysis of blue light threats Julia Staś - Colour vision in type 1 diabetes Tretinjak Korina - Examining symptoms of depression, anxiety and stress in people with refractive error	WORKSHOP Preferential looking tests in low vision Pavel Beneš and Petr Vesely	WORKSHOP Clinical assessment of visual cognition skills for children Christine Nearchou
17:30-18:00	Andreas Hartwig Understanding Optical Coherence Tomography in Optometric Practice: A Guide to Retinal OCT Interpretation			
18:00-18:30	Anja Sever Optometrist's role in laser surgery			
18:30-19:00	Evita Kassaliete The Impact of Refractive, Accommodative, and Binocular Dysfunctions on Children's Reading Performance		SIG - Education Master u Optometriji	

Sunday, April 27, 2025

Time:	Ballroom	Lovor	Mimosa I	Mimosa II	
10:00-10:30	Dominika Olkowska Supplementation in Maintaining Visual Homeostasis				
10:30-11:00	Lorcan Butler Effective Communication - Breaking Bad News				
11:00-11:30	Coffee Break & POSTER SESSION				
11:30-12:00	Ettore Tamajo What information does a photon hide?				
12:00-12:30	Sanja Kalambura Research on the Awareness of Materials Used for Optical Aids and the Importance of Ecological Waste Management				
12:30-13:00	Tomislav Kuček Diversification of Geometries and a Team-Based Approach in Contact Lens Fitting for Keratoconus: A Case Study and the Benefits of Technology for Optimal Adaptation				
13:00-13:20	CLOSING CONFERENCE
